

Calling All Volunteers.

Hello~ I'm writing today because you are one of our amazing, trusted volunteers, and I'm pretty sure you'll be interested in a new, very time-sensitive opportunity. We are all involved in a "full-court press" to get as many seniors vaccinated, as quickly as possible.

As you also know, many of our folks have difficulty navigating the on-boarding process, whether that's getting through the byzantine phone system, making an online reservation (or two!) and arranging transportation to the vaccine site.

This is where you come in!

Might you be interested to serve as a "vaccine buddy" for a senior or seniors? As a buddy, you'll be assigned a senior who has already requested help with the process, and work to get him or her signed up for and to the shots.

Please note - being a Vaccine Buddy will entail only telephone or possibly computer contact with the client and there will be no face-to-face contact at all.

Our Vaccine Buddy program is a joint project with the Interfaith Volunteer Caregivers Driving Program. Your senior can register with them to get transportation to get to and from that appointment.

PLEASE note that Interfaith is also looking for volunteers willing to assist with the transportation as well, and I can help you connect with them.

Right now, is a historic time for us to rally round and help our seniors when and where they need it most ... if not now, when?

AS ALWAYS FEEL FREE TO REACH OUT. I AM ALWAYS HERE FOR YOU.
